To Add a User or Change a User's Code

Important: Temporary users of the system (e.g., babysitter, cleaning staff) should not be shown how to use any system function they do not need to know, such as bypassing protection zones.

You must make sequential key depressions for all steps in a procedure within 2 seconds of one another (e.g., perform steps 1, 2, and 3 below with no delay between steps), or else the entire entry is aborted and must be repeated from its beginning.

1. +
(Master Code)

Enter 4-digit Master code, then press the key.

Example: Press then

2.
(User Number)

Enter user number.

Enter the 2-digit user number (03-16) for the user you are adding or changing.

3.
(User's Code)

Enter user's code.

Enter the new 4-digit security code for that user.

Changing the Master Code

Follow the procedure for changing a user's code, but enter user 02. Additionally, when changing the Master code, you must perform step 3 twice with the same user code entry so that the new Master code will be accepted by the system.

To Delete a User

1. +
(Master Code)

Enter 4-digit Master code, then press the key.

Example: Press then

2.
(User Number)

Enter user number.

Enter the 2-digit user number (03-16) for the user whose code you are deleting.

3. -----

Stop.

Wait (about 3 seconds) until the keypad beeps once before pressing any other key. The code is automatically deleted.
