

NOVEMBER 2017 NEWSLETTER

Smart Home Features with True Steel Now

Many Smart Home features are available with our True Steel Now service. As you head out to enjoy the day, with the tap of a button:

- your thermostat will adjust to your temperature setting
- your lights will turn off
- your alarm system will arm
- your door will lock
- your garage door will close

Similarly, you can set up one button automation for your return home. If you are interested in learning more on how you can control your home with the tap of a button, please let us know.

Give the gift of Peace of Mind this Holiday Season

Looking for that special gift to give your loved ones? True Steel Security offers monitored security alarm systems to purchase from as low as \$265.00, or \$9.31 per month (36 months). A low monitoring rate applies.

We offer wireless systems for those that may move allowing the ability to easily re-install the system at a new location. For further information or to book a free consultation with one of our Security Specialists, please contact us at: Sudbury 705-674-0116, North Bay 705-476-7612 or Toll Free 800-667-5919.

Community Spirit and Involvement

True Steel Security, a division of The Northern Communications Group of Companies supported over 40 organizations in 2017. A percentage from the proceeds from all the services and/or equipment that we provide is donated back to the community and to various charities. Together, we are making a difference in the communities we live and do business in. If your charitable organization requires new volunteers or some extra helping hands throughout the year, please let us know by sending an email to info@truesteel.com.

Woof, Purr, Meow : Going Away But Worried About Leaving Your Pets Behind?

True Steel Security can help you ensure your pets are taken care of. Assign a user code to the dog walker or cat sitter, then be notified immediately on their arrival, or receive an alert if they do not arrive when expected.

If you would like some assistance in programming any notifications into your True Steel Now system, please give us a call.

Online Technical Support Available

In the interest of helping you save money when something minor happens with your alarm system, we have made a number of tools available to you on our website. We have specific sections of manuals to help you make code changes, set the date and time, clear system troubles and bypass devices. We also have videos that show you how to replace batteries in panels and wireless devices. To find this information, please go to www.truesteel.com and click on the Support option located at the top right of the page. We are always looking for ways to serve you better and welcome your feedback on these helpful tools.

Save A Tree Win A Prize

We are committed to reducing our environmental footprint by going paperless! Help us achieve this goal by changing your newsletter and invoice delivery method to e-mail or switching your invoicing to pre-authorized payment. Everyone who does so by the end of November will be entered into a draw for a \$50 gift card of your choice. To be entered, please call 800-667-5919 and mention the newsletter draw.

Tips to Prevent Being Burglarized

Here are a few safety tips to consider to reduce your risk of being burglarized.

- Always arm your security system when you leave your home even if it's just for a short time. Burglaries occur at all hours.
- Never call attention to costly new purchases. Flatten boxes with the product information facing in when putting them out for collection.
- Install secure windows and sturdy doors.
- Lock your doors and windows, even while you're in the house. About half of burglars enter through unlocked doors and windows.
- Consider installing bars on windows not protected by your security system or upgrading it to cover all windows.
- Display our decal at all possible points of entry. Security decals and yard signs are a big deterrent.
- Identify and eliminate areas that could easily conceal a burglar while they attempt to gain entry to your home.
- Install motion triggered lighting to surprise and scare off would be burglars.
- Always keep your car doors locked. Theft from unlocked vehicles is extremely common.
